

Environmental Management Procedure (EMP) 4.4.6.10 Tab 8

Subject: Commercial Forestry

1. Purpose: This EMP establishes the procedures for the management of the installation's standing timber, commercial forests and forestry products.
2. Document Control: This is a controlled document. Controlled documents are updated as required, reviewed at least annually, and re-dated if changed. Any documents to include blank forms appearing in paper form are not controlled and should be checked against the file version prior to use on the:

JBLE – Eustis Environmental website: <http://www.jble.af.mil/Units/Army/Eustis-Enviromental/>

3. References:
 - A. JBLE-I 32-101, Environmental Management
 - B. EMP Dictionary
 - C. EMP 4.4.6.10 Natural Resource Management
 - D. Integrated Natural Resources Management Plan (INRMP)
 - E. Timber Inventory and Forest Management Plan (an annex to INRMP).
 - F. AFI 32-7064 Integrated Natural Resources Management.
4. Scope: This EMP applies to all Activities and personnel, including military, civilians, vendors, suppliers, and contractor personnel who enter JBLE-Eustis. The definition of an Activity can be found in JBLE I 32-101.
5. Roles and Responsibilities:
 - A. CED/EE will:
 - (1). Manage the commercial forestry program in accordance with INRMP.
 - (2). Issue firewood permits when appropriate and only if compliance is met with existing quarantines associated with insect pests or other conditions.
 - (3). Provide mulch when available and only if compliance is met with existing quarantines associated with insect pests or other conditions.
 - (4). Perform timber cruises of forested stands intended for removal as a result of construction projects or areas requiring timber stand improvements (TSI) and coordinate sales of marketable timber.
 - (5). Coordinate forest regeneration projects.
 - (6). Conduct marketable timber sales in accordance with the INRMP and AFI 32-7064.
 - B. CED will coordinate with CED/EE concerning forestry impacted by construction or other projects.

- C. Army Support Activity (ASA) will coordinate with CED/EE for assistance with TSI in support of the Integrated Training Area Management program on training lands.
 - D. Activities desiring firewood or mulch will coordinate with CED/EE to obtain firewood permits or mulch when available when appropriate and only if compliance is met with existing quarantines associated with insect pests or other conditions.
6. Procedures:
- A. Coordinate a timber inventory as part of the INRMP with ASA and FSD input. This inventory will be revised/updated every ten (10).
 - B. Perform timber stand improvements and reforestation work in accordance with mission requirements from an ecosystem approach coordinating with CED and ASA.
