

Environmental Management Procedure (EMP) 4.4.6.8 Tab 2

Subject: Hazardous Waste Management (HWM) Special Procedures for Unique Wastes

1. Purpose: This EMP establishes special procedures for managing unique wastes streams that are generated by the Activities on the installation.
2. Document Control: This is a controlled document. Controlled documents are updated as required, reviewed at least annually, and re-dated if changed. Any documents to include blank forms appearing in paper form are not controlled and should be checked against the file version prior to use on the:

JBLE – Eustis Environmental website: <http://www.jble.af.mil/Units/Army/Eustis-Enviromental/>

3. References:
 - A. JBLE-I 32-101, Environmental Management
 - B. EMP 4.4.6.8 Hazardous Waste Management (HWM)
 - C. EMP Dictionary
4. Scope: This EMP applies to all Activities and personnel, including military, civilians, vendors, suppliers, and contractor personnel who enter JBLE-Eustis. The definition of an Activity can be found in JBLE I 32-101.
5. Roles and Responsibilities:
 - A. Civil Engineer Directorate (CED); Environmental (CEIE) will:
 - (1). Manage the Installation's HWM program.
 - (2). Establish special procedures for the management of unique wastes on a case by case basis.
 - B. Activities will:
 - (1). Comply with all special procedures for the specified unique wastes in this EMP or the full HWM procedures will apply if not in full compliance.
 - (2). Comply with all HWM procedures in EMP 4.4.6.8 and its related EMPs, unless otherwise modified in paragraph 6 below.
6. Procedures:
 - A. Unique Waste Streams: The Unique Waste Streams listed below are the only waste streams subject to the modified special procedures:
 - (1). Silver Nitrate Treatment Swabs/Sticks.
 - (2). TBD.
 - B. Pharmacological Wastes. No Regulated Medical Wastes to include, but not limited to; "Infectious Waste," "Bio-hazardous Waste," "Clinical Waste," "Biomedical Waste", etc. or any Drug Enforcement Agency (DEA) Scheduled compounds.
 - (1). Silver Nitrate Treatment Swabs/Sticks :

(a). Site Management:

- i. Use FEVA 32-699 (EMP 4.4.6.8.2 Tab 1) for approval; Block 2, SAS; Block 8, Bldg. # (Various); Block 15, all possible Container locations will be identified on the Site Map. Give each possible location its own identification number (ID), e.g., 1st Floor area 1 = 1F1; 3rd Floor area 2 = 3F2, etc.
- ii. Use FEVA Form 32-698 (EMP 4.4.6.8.2 Tab 2) to conduct monthly inspections of each container location. One line per location. In the "CORRECTIVE ACTIONS & DATE" block indicate the appropriate location ID.

(b). Waste Containers:

- i. Properly labeled containers will be issued for each location by the HWAF.
- ii. DO NOT MOVE Containers from ONE Location to Another!
- iii. Containers may be reused if serviceable.
- iv. Containers will be marked with an Initial Accumulation Date (IAD) when waste is put in the container. Use a grease pencil or other easily removed marker for recording the date. This IS NOT an Accumulation Start Date (ASD). The maximum time waste can be at each location before consolidation is 180 days.
- v. The HWAF will issue a container for the consolidation of the wastes from the various locations with a CCL.
- vi. When consolidation is made, in Block "Type of Waste", The Location ID and IAD will be recorded along with the type of waste. The consolidated waste will be moved to a TSS, never to a SAS or NHS. The date the consolidated waste is moved to the TSS, will become the ASD.
