

F. 703 – Balcony Enclosure

- JBLE-Langley has limited space and facilities must be fully utilized.
- F. 703 can better serve as administrative space by enclosing the rear balcony.
- Brickwork and additional features will be constructed to align with the historic appearance and feel of the facility built in 1934.
- Questions or comments should be directed to 633CES.CEIE.NEPAPublicComment@us.af.mil.
