

2018 Spring Turkey Season

The Fort Eustis Spring Turkey Season is managed and administered by the Natural Resources staff within 733 Civil Engineer Division.

Hunting opportunities for the Spring Turkey Season are based on a lottery system. Lottery tickets cost \$25 with a one lottery ticket per person limit. Tickets are non-refundable, but transferrable. (Checks or Money Order Only)

Hunt selectees have two (2) half days (from 30 minutes before sunrise until noon) to harvest one bearded turkey. Hunters unsuccessful with harvesting a turkey during their allotted times may be afforded additional days if their assigned area is available, and after all other selectees have been afforded their days. However, we cannot guaranteed additional days.

Hunt selectees may elect one (1) person to accompany them during their hunt, but this person may not handle firearms at any time, and if calling for the hunter selectee, must possess all appropriate state licenses.

Registration of firearms with 733 Security Forces Squadron is mandatory prior to entry onto the installation.

2018 Spring Turkey Season lottery tickets go on sale 5-30 March 2018, M-F/0900-1600 hrs at bldg. 1407 or 1409.

The lottery drawing occurs 2 April 2018. The 733 CED Natural Resources staff will notify lottery winners between 2-3 April 2018; winning hunters will choose their area and dates to hunt at that time.

The Natural Resources staff anticipates allotting 6 bearded turkeys for this harvest, but this number may change based on March 2018 wildlife survey results.
