

Staff Sergeant Fernando Llama

Integrated Avionics Specialist

Senior Airman Fernando Llama is an Integrated Avionics specialist for the F-22 Raptor Demonstration Team and a member of the 1st Fighter Wing. As an avionics specialist, he is responsible for ensuring the aircraft's RADAR, communication, electrical, environmental, and navigational systems are operational. Llama represents Air Combat Command, the United States Air Force, and the Department of Defense at more than 20 air shows annually. His mission is to ensure the demonstration team has a quality aircraft available to perform a safe demonstration so that millions of spectators are able to see the F-22's air superiority. Llama was born and raised in Bayamon, PR. He graduated from Colegio Rosa-Bell in 2010, and was also on the schools tennis team. In his free time he enjoys hiking, fishing, playing tennis, and traveling. Llama is currently working towards a degree in aeronautics.
