

# WHAT IS A SPILL?

## What is a Spill?

**ANY spilling, leaking, pumping, pouring, emitting, emptying or dumping of any quantity. This includes liquids, solids and gases!**

**What types of hazardous materials are included in spill prevention and immediate response?**

- All petroleum oil such as MOTOR OIL, USED OIL, LUBRICATING OIL, GREASE, HYDRAULIC FLUID, BRAKE FLUID, ETC...
- All FUELS such as GASOLINE, DIESEL, #2 FUEL, JP8, KEROSENE, ETC...
- Serviceable products such as obtained from the HazMart including ANTIFREEZE, PAINT, PAINT THINNER, METHANOL, SOLVENTS, SULFURIC ACID and many others.
- Compressed gases such as ACETYLENE.
- Also includes hazardous waste and non-hazardous wastes!

*Watch for leaks! Report them!*

What to do about:

## Spills in Training Areas

**JBLE—Fort Eustis, VA  
RANGE CONTROL:  
757-878-4412**

**Sustainable Range Awareness:  
757-878-7153**

# SPILLS—They CAN happen to YOU.

What to do if my organization causes a **SPILL** in a Training Area?  
(Or I observe one happening)?

IF YOU ARE:

IF YOU ARE:

**Responsible Party:**

(includes but is not limited to AEC, HWC, & Training Facility Managers)

**Personnel observing a spill,  
but not responsible:**

1. Call Fire & Emergency Services Division: Fort Eustis 757-878-1008
2. Contain spill, if feasible and personal safety is not jeopardized!
3. Report incident to Range Control: 757-878-4412

Fire and Emergency Services Division responds and:

- Stops and contains spills
- Coordinates clean-up strategy
