

Senior Airman Logan Phouangaphayvong

Integrated Avionics Craftsman

Senior Airman Logan Phouangaphayvong is an Integrated Avionics Craftsman for the F-22 Raptor Demonstration Team and a member of the 1st Fighter Wing. As an Avionics Craftsman he is responsible for ensuring the aircraft's RADAR, communication, electrical, environmental, and navigational systems are operational.

He represents Air Combat Command, the United States Air Force, and the Department of Defense at more than 20 air shows annually. His mission is to ensure the demonstration team has a quality aircraft available to perform a safe demonstration so that millions of spectators can see the F-22's air superiority.

Phouangaphayvong enlisted in the Air Force in February, 2018. He is from Fort Worth, Texas and graduated from Richland High School. Growing up

he enjoyed swimming, playing football, paintball, and airsoft. In his free time, Logan enjoys weightlifting, traveling, and playing airsoft.
